AL - Rich nose, rich stone fruit, minerality and florality aromas. Elegant bouquet. Very unctuous palate, good density and ripe fruit, fresh acidity, spicy with some mineral notes, really long finish. Very good now, yet fine potential ahead !

DL - Very gold yellow with green sheens. Distinguished nose with grass, lime and minerality. Round and full attack, good mellowness, low, but balanced acidity, medium body, good length. What we need is THIS for good Grüner.

HP - Yellow gold. Very low varietal expression, low persistence nose. Much more interesting mouth, lemon, ripe apple and banana flavors, long, well balanced and racy. Lower score because of bouquet.

MS - Green gold. Rich, ripe aromas. Great intensity and length. Super fresh and long. Breathtaking structure and power. The bomb !

RD - Vibrant light golden. Ripe apricot aromas on full and rich, intense nose. Dry and full, ripe fruit flavors, medium bodied palate, clean and lengthy. Well made.
